Tribute Wall

“ Our children have wonderful memories of playing together with Paul and Brian who were our neighbors. Beryl used to cut my hair and we had many conversations about our children and family. She was a very kind woman and we enjoyed our time together.

“ I have taken care of you off and on for a while. I went with you to the hospital, and stayed with you for 25 hours. I hated leaving you there by yourself but I was so tierd. I came back to the hospital to take care of you, I was happy that I was going to be able to see you again. But I was to late. You died right before I got there.
