“ To the whole Dimperio clan:I'm glad to have the chance here to tell you all how much I admired your Dad.I met him & your Mom when Nancy & I became best friends in 8th grade. He was always so patient...Don't know how he managed to drive that old station wagon with all us kids and put up with all our noise and commotion! I was so impressed with his years of caring for your Mom; but then I always knew he was that kind of guy. Wish I could be there to hug all of you. Love,Joanne

“ *There isn't much more that I can add that everyone hasn't already said. When I was younger I really didn't know my dad, he was always working in order to provide for such a big family. Funny as I think back, I don't think we wanted for anything either! I am so fortunate though to have been able to really get to know my dad after I had my own children. He was always there for us then too. My kids were so close to their grandparents and I am very thankful for that too! I love and miss my parents, it is so hard to be so selfish to want them here forever! Dad, you left us too soon, but I am so glad that you were able to go the way you did, in peace and with your loving family with you whether it was in person or in spirit. I miss you so much every single day.love you always and forever,Jean*

“ *We feel that Mom survived more years in her life because of the good care, love, and deep devotion that Dad gave her all day and everyday. Dad was this way in all aspects, very humble about it, and every bit of a Dad that one could wish for. You've been with us so long and left us so suddenly. We'll miss you and draw on the values you demonstrated and taught us throughout the years. Love you! Steve*

“Dad was always a very special person. As I got older I began to realize just how special he was. He had such patience, even as my Mom's dementia became worse and more debilitating. I'd ask him how he could do it all (meals, dishes, laundry, personal care, and more) and he'd just say she took care of all of us for years and now it was his turn to take care of her. He was not a complainer. He wouldn't offer negative information (or symptoms when he was sick unless you asked him directly) easily; he never wanted to "bother" anyone. What a guy! I love you, Dad, and will miss you terribly!
